Corporate Security Serving your security needs

We Adapt To The Way You Work

We are a highly experienced, well-established specialist in manned guarding services. We provide an effective and professional Security service.

Our staff are integrated into the daily workings and operation of the premises they are protecting.

Corporate Security Service

has developed within a wide range of working environments.

Our business encompasses a broad spectrum of business sectors, including:

office, cinema, retail, post room, gatehouse, patrolling, manned guarding, CCTV monitoring, corporate, sports centres, estate management, reception and retail.

Our Mission

Corporate Security Service expects work, conduct and honesty to be of the highest standards and our mission is to

- 1. Uphold a first class security service
- 2. Public confidence in your integrity as a corporate security service employee
- 3. Uphold the good reputation of our clients

Logistical Recourses

With the high levels of back-up to ensure all aspects of manpower is fully covered, cover for site inspections, communications to support all elements of your business plan.

Monitoring and evaluation are one of the most important features of the service we provide. All clients receive detailed plans to ensure a fully effective service.

We monitor our performance constantly and evaluate your business plan to issue feedback on the service being provided to you.

In addition, we have a team of dedicated management ensuring we work with honesty and integrity to ensure effective service from day one.

Training and development

We believe that people are the nucleus of any service. Increased training enables our staff to develop, and we create a competitive advantage. We believe that investment in our staff development is the key to improving our company performance.

Corporate Security service is committed to providing structured outgoing development for all our workers.

The outcome of our training initiatives is highly skilled security guards, with knowledge and understanding of high the security industry operates. We will always ensure that competence development is supported through measurement and structured feedback. We provide staff that consistently perform to specified standards by Managers to maintain and improve performance.

We are currently using the latest training methodology to enhance the effectiveness of all Corporate Security Service workers.

We provide a 24/7 service

Corporate Security provides a fully vetted security service for the UK.

As an organisation Corporate Security Service provides efficient fully trained Manned Guards, vetted to BS 7858:2012 (screening of security staff), standards as a minimum.

In addition, we ensure all our processes and procedures adhere to BS7499:2013 (static guarding and mobile patrol service).

Out training strategies are:

- Training and development programmes.
- To accommodate the varying needs of different security sites within the training model
- Rigorous training and assessment approaches to technical competence
- Support Corporate Security Service workers ongoing development
- Deliver training and development interventions and flexible processes
- Develop training capability in line with new service offerings.
